Dmitrii Zhigalev

Frontend developer

About Me

I'm a Junior Frontend Developer slash Engineer from Moscow currently located in Essen, Germany.

Mainly focusing on react-applications and javascript-animation.

Currently I'm a workless student, amping up my skills for an up-to-date web developing.

Past Experience

Netology LLC — Mentoring the students

1 year

After finishing the last section of react courses I was offered to help people that have just started course with their questions and homework. Another part of this job was helping gathering the material for the new courses. That helped me to build a strong ground of basic knowledge of frontend technologies and programming methologies.

Biologicheskaya sreda LLC — Frontend developer

1 year

Developing and supporting the client's side in russian medical company.

Studying — Industrial engineering

currently

Nowadays I'm studying in Germany and meanwhile trying to increase my skills by learning new web-technologies and practicing with old ones.
